Nom du directeur pour le contrat à venir :

On dressera la liste des produits de la recherche et des activités de recherche en respectant les indications de nombre et de présentation données dans le dossier d'autoévaluation.

Lorsqu'une unité n'est pas concernée par un type de produit de la recherche, parce qu'elle n'en compte aucun dans ses réalisations ou qu'ils ne relèvent pas de son domaine de compétences, elle précise que cette rubrique est « sans objet » pour elle.

Dans le cas des unités pluri-équipes, lorsque des produits sont communs à plusieurs équipes de l'unité, ils sont regroupés à part dans la rubrique concernée.

Dans le cas de publications cosignées par plusieurs personnes, la liste de tous les auteurs sera établie, excepté lorsque le nombre de co-auteurs sera supérieur à la quinzaine. Les noms des membres de l'unité de recherche, de l'équipe interne ou du thème seront soulignés dans la liste des co-auteurs.

Pour les personnels recrutés au cours des cinq dernières années, les produits et les activités réalisés dans leur unité de recherche d'origine seront mentionnés dans une liste séparée.

Articles scientifiques

On dressera d'abord la liste des produits phares de l'unité dans ce domaine qui seront présentés en détail dans la partie « Faits marquants » du dossier d'autoévaluation tout en respectant les indications de nombre données dans le dossier d'autoévaluation et en numérotant ces produits de 1 à x.

Puis, en ayant soin de séparer clairement les deux listes, on dressera la liste des autres produits de la même catégorie, qu'on numérotera de 1 à x. **Cette liste ne couvre pas exhaustivement la production de l'unité mais seulement les 20% les plus significatifs.**
